Nathan found a 30 min window on Tuesday. We can focus on update (Vince if you can send over the revised memo I can try to get that in front of Bob and Lek), handbook and followup from Matt meeting if we have any news. And of course updated 6 mos outlook.

I would cover one or the other, but I will be in Philly for the NSAS/IRIS talk.
Maybe Sam covers BaP, you do the briefing, while I do Philly?

That is a problem. Our next meeting with Matt is July 5th so no room to maneuver and we don't want to move that if we can help it. Stay tuned.

On followup from the last meeting with Matt - Lek is checking in with him. Will keep you posted.

Thanks, Maureen! One problem, though: our next IRIS public science meeting (BaP and t-butyl alcohol) will be June 29-30. The pre-brief time of 3-4 pm is especially sensitive, as it coincides with the public comment session on tBA, and it wouldn't look good for me to miss it ... Any ideas?—Vince

Sorry — just noted this is the 30th not the 29th. Details below still apply.

Subject: IRIS prebrief - June 29

Hi all –

Proposed topics for the IRIS prebrief on June 29: IRIS Handbook, Non-cancer hazard descriptors (update from the STPC meeting), IRIS Update

Anything else you'd like to add, please let me know. If we have any chemicals heading our way for review, can you also tee that up for me? Bob's schedule is pretty tight the new few months so would be good for me to have these in mind.

Thanks,

Maureen
